

## **No More Victims: Protecting those with Autism from Cyber Bullying, Internet Predators, and Scams**

This book by Dr. Jed Baker discusses ways to prevent cyber abuse in the form of cyber bullying, online sexual predators, and internet scams against people with Autism.

Dr. Baker's website describes the book as follows: "The digital world of cell phones and other Internet devices offers a wonderful way to communicate, yet it is also rife with dangers of being victimized emotionally, physically, and financially. *No More Victims* addresses three areas of concern: cyber bullying, online sexual predators, and Internet scams. Individuals on the autism spectrum may be particularly susceptible to such victimization because of challenges with perspective taking, isolation and increased time online, and difficulty with assertive communication skills. *No More Victims* describes ways to prevent all three forms of cyber abuse."
