

Kim's Experience - A Place of Belonging

Transcript

Kim (speaking about her job helping in a kindergarten): And, I'd just like to let know the other people with special needs, You can do it! You can get out there. You can get to work and everything, and you can just do it! And your heart just feels great about it.

Teacher (speaking about Kim's role helping her in the kindergarten): From the moment that she's arrived, there's an ear-to-ear smile and it's like she feels she is in a place that is just embracing her. And we do embrace her. The children love her.

(with thanks to Linda Alonzi and her colleagues at the Toronto Catholic District School Board.)
