

Rebecca and Heryka – ReVeAL Dance Creation

Transcript

Heryka: Rebecca has also inspired me in really trying to understand the deeper meaning of what it means to--what it means to have programming that is accessible. She's inspired me to actually dance again. I didn't dance for a long time and then Rebecca came and has been supporting me in different solo performances that I haven't done in ten years, so that's been an incredible gift that you've given me.

And she's also inspired me to work with another--the young woman that introduced me to you, named Eunji--to create a dance movement and a performance-based leadership program for youth with special needs and disabilities called ReVeAL Dance Creation.

So Rebecca, you've really helped us, Eunji and myself, develop Reveal Dance Creation, the whole idea behind ReVeAL Dance Creation for bringing more dance movement opportunities and performance opportunities to youth with special needs, and not just for special needs, to really integrate youth and able-bodied young people to come together to dance and perform and learn from one another.

So, that's definitely been an amazing gift.

(Heryka Miranda and Eunji Kim are co-founders of ReVeAL Dance Creation – a pilot project for youth with special needs in the Toronto area.)
